

Die erste Smart-Watch der Welt, die die **Kalorienzufuhr** (zur Ernährungskontrolle!), den **Wasserhaushalt** und den **Stresspegel** automatisch überwacht.

WINNER OF THE 2018 CONSUMER ELECTRONICS SHOW EFTM Best "Bloody Ripper Idea"

WINNER OF THE 2019 CONSUMER ELECTRONICS SHOW INNOVATIVE PRODUCT OF THE YEAR

HEALBE GoBe3 WHAT'S NEW?

- Improved geometry of contacts raises data collection accuracy
- Optic pulse sensor measures pulse in real-time
- Hypoallergenic titanium sensor contacts and Soft-touch band straps make time spent with GoBe3 very comfortable
- Wi-Fi module speeds up complex data processing
- Clear plain metrics to collect information about body system work available real-time
- Smart watch functions
- Notifications available
- MIP display - glare-free and easy operation even on the sunniest of days.

WHAT WE MEASURE

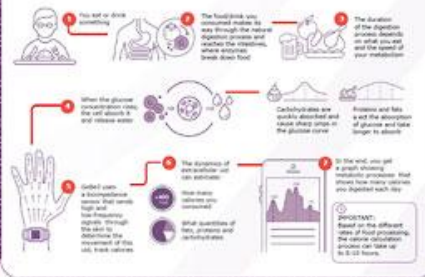

HOW DOES GoBe3 COUNT CALORIES?

HEALBE's patented FLOW Technology uses information from three sensors: accelerometer, enhanced impedance sensor, optic pulse sensor to deliver comprehensive insights on your calories intake and burned.

HOW DOES GoBe3 COUNT INTAKE CALORIES?

MACHINE LEARNING

HOW DOES GoBe3 HELP TO KEEP GOOD HYDRATION LEVEL?

GoBe3 measures increases and decreases in your body's hydration level with an enhanced impedance sensor. It also uses information about your activity and body data. To help you stay hydrated, GoBe3 uses algorithms to determine how frequently it should remind you to drink.

HOW DOES DEHYDRATION AFFECT YOUR BODY?

- Fatigue
- High blood pressure
- Weight gain
- Digestion problems
- Joint pain
- Faster-aging skin

HOW GoBe3 MEASURES YOUR STRESS LEVEL?

GoBe3 estimates your stress level by conducting a complex analysis:

- Optic pulse sensor identifies a high heart rate;
- The bracelet analyzes data on the previous night sleep quality and time zones change;
- Accelerometer measures the absence of physical activity at this moment.

HOW GoBe3 TRACKS YOUR SLEEP?

GoBe3 provides a thorough sleep analysis by measuring your heart rate and motion behavior throughout the night. Every night GoBe3 monitors your body's parameters to provide a full data report of your sleep phases.

HOW GoBe3 DEFINES EMOTIONAL STRESS?

When you experience emotions, the sweat glands respond to it. Using a galvanic skin reaction sensor (GSR), GoBe3 measures the activity of the sweat glands. If they are active for more than 10 minutes, GoBe3 notifies you about emotional stress with message "EMOTION".

HOW DOES GoBe3 MEASURE YOUR HEART RATE?

GoBe3 measures your resting heart rate and pulse during physical activity, automatically and constantly, while you're wearing the device. It delivers updated measurements and helps you evaluate your lifestyle and maximize your workouts

WHAT'S IN THE BOX

HEALBE GoBe3 smart band with strap

USB charging cable

User manual

ACCESSORIES & MANUAL INSIDE

To set up your GoBe3 download Healbe App
