## SMART LUGGAGE

### SECURITY & SMART FEATURES

#### PUNCTURE RESISTANT ZIPS

All the main zips on your Numinous London™ products include our puncture resistant zips, meaning they are stronger and more secure than regular zips and help to prevent unauthorised access from pen or tool attack.

#### ANTI-SLASH TECHNOLOGY

Our innovative fabric layers include anti-slash technology which has a high tensile strength-to-weight ratio; by this measure it is 5 times stronger than steel on an equal weight basis. This technology is used to protect all fabric parts of your Numinous London™ product & reduces the risk of unauthorised access by knife attack on your product.

#### SMART DEVICE CHARGER

Engineered for integration, our SMART device chargers come in a very slim design and cable with Dashboard™ USB ports, this can provide days or weeks of partial smartphone / tablet charges or up to several complete charges. These lightweight units provide a lot of power in a very compact form.

#### BIOMETRIC FINGERPRINT LOCK

Numinous London™ products feature the latest Bio-metric fingerprint technology, simply place your finger on the bio-metric element to gain access to your belongings. The device allows you to add up to 100 additional fingerprints giving you the option to add friends or family members.

#### INTEGRATED WEIGHING SCALES

In-built into your Numinous London™ SMART case are weighing scales, simply turn on the display on the side of your case, gently tip on to its feet and get the weight of your case before you get to the airport. No more overweight fees, or frantically trying to lighten the load at an airport check in desk.
